DETAILED ACTION

1. Claims 1-11 are pending.
2. Amendment filed 01/17/2006 has been received and considered.

Allowable Subject Matter

3. The following is an examiner's statement of reasons for allowance: the prior art teaches transferring privileges as seen by Tajalli et al (US 5361359) and by Brown et al (US 20010047485), they fail to teach that when a privilege is transferred from an administrator, the program is disabled to the administrator. The prior art of record also teaches monitoring the number of accesses to a resource. Furthermore, the command "chown", as disclosed by Alexander Frink, teaches transferring privileges by changing owners of a file, but it also teaches that, "With administrative privileges it is **always** possible to change the owner of a file, even if administrators have explicit No Access to the file." Therefore, in known operating systems, such as Windows NT, it is impossible for an administrator to be restricted access to a file or program.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

For the above reasons claims 1-11 are allowed.
